## About ProDVX

ProDVX develops and produces high-quality and innovative signage displays, touchscreen monitors, panel PCs and box PCs, used globally for digital communication. There's a good chance you've already used one of our devices for room booking, self-service, point-of-sale, wayfinding, floor plan, visitor management or any other form of interactive digital signage.

Matrix Booking is a Platinum Partner of ProDVX. They chose ProDVX as a supplier for their hardware solutions due to the quality and range of products. Their diverse customers require commercial-grade, robust hardware to support:

- Desk booking
- Meeting room and collaboration booking
- Wayfinding
- Live occupancy and environmental displays, for example, temperature and air quality
- Visitor management

# Meet our products

## APPC-10SLB

- Quad-core Cortex-A55 ARM processor + Mali G52 GPU
- Android 12
- Power over Ethernet+
- Non-glare treatment
- IEEE 802.1X LAN + Wi-Fi support
- Full RGB surround LED bar

## APPC-10XPL

- Quad-core Cortex-A55 ARM processor + Mali G52 GPU
- Android 12
- Power over Ethernet+
- Non-glare treatment
- IEEE 802.1X LAN + Wi-Fi support
- 2-sided Full RGB LED bar

## APPC-22XP

- Dual-core Cortex A72 with Quad-core A53 CPU + Mali T860MP4 GPU
- Android 11
- Power over Ethernet++
- Non-glare treatment
- IEEE 802.1X LAN + Wi-Fi support
- 250 cd/m2 brightness

## ABPC-4220

- Dual-core Cortex A72 with Quad-core A53 CPU + Mali T860MP4 GPU
- Android 9
- Power over Ethernet+
- Large variety of I/O ports
- Supports up to 4K resolution
- 2-sided Full RGB LED bar
